Hi JJ,

I was drafting a bigger email to you, but I'll answer this one first. ☺

No sampling tomorrow. Apparently the rain chances are too high for comfort. Tentatively set for Aug. 24.

Maybe Steve and I can meet you when they collect the Hester-Dendy's. I could certainly use a bit of an education on this. I'm a geologist by schooling.

Another email to come in a bit.

Have a good day.

Kristy

Subject: Quick Question

Good Morning Kristy,

I hope you had a nice weekend.

Is the sampling still a go for tomorrow, assuming we get no rain? If so can you send me the contact information so that I can put my contractor in touch with the sampling teams for start

time and meeting location. It would be much appreciated.

On a side note, it looks like last week's work went well. I think I am going to have to make it down for one of the future Biological Assessments as the pictures reminded me of my first job longline electro-shocking and setting Hester-Dendy's.

Have a great week!

Thank you,

JJ Justice
